

Arkansas Environmental Personnel Move: Clark McWilliams Transfers to Office of Water

Arkansas Environmental, Energy, and Water Law Blog

01/29/2016

I understand that veteran Solid Waste Management Division staffer Professional Engineer Clark McWilliams is moving to the Office of Water.

Mr. McWilliams will be an Engineer Supervisor for Clean Water Act National Pollution Discharge and Elimination System Permits in the Office of Water.

I believe he will begin his new position on February 1st.
