

Electronic Waste: Chubb Paper Addresses Environmental and Regulatory Challenges

Arkansas Environmental, Energy, and Water Law Blog

08/02/2016

Chubb has issued a paper addressing a number of issues dealing with electronic waste disposal.

The article is authored by Jasmine Nasiri, Steven Piatkowski, Frank Westfall and is titled *Electronic Waste: Managing the Environmental and Regulatory Challenges* ("Article").

The *Article* addresses a number of issues associated with electronic waste ("e-Waste") such as:

- Pollution associated with electronic waste
- Federal and State Regulatory Interest (Increasing)
- Potential corporate and individual liability (Penalties/litigation costs for improper disposal)
- Corporate interest in insurance and risk management solutions
- Options for recycling and/or proper disposal of e-waste
- Increased generation of e-waste
- Adapt and reuse programs
- Complexities of recycling e-waste
