The Beaver Watershed Alliance (“BWA”) announced that a Forest Management Workshop (“Workshop”) for Landowners will be held on January 28th in Rogers, Arkansas.

The Workshop is scheduled from 9:00 a.m. to 12:00 p.m. at Hobbs State Park and is free of charge.

The Workshop will address:

- A general overview of the characteristics of a healthy forest
- Forest management techniques for landowners to undertake as they work to achieve forest health on their property
- Invasive plants and pest and disease recognition
- Forest best management practices such as ecological thinning of timber as part of a management plans for forest health, financial assistance, timber stand improvement, invasive plant removal (including how such activities relate to clean water in Beaver Lake)

Speakers will include personnel from the United States Department of Agriculture Natural Resources Conservation Service, University of Arkansas Division of Agriculture, and Beaver Water District.

Those interested in attending should RSVP by contacting Jennifer Ogle at 479-750-8007 or jennifer@beaverwatershedalliance.org.
