Strategic approach and real-world solutions to help clients effectively resolve disputes and get back to business.

Business disputes can surface in any commercial context and industry and threaten a business' reputation, economic interests and corporate relationships. At Mitchell Williams, our experienced litigation team has the extensive legal knowledge required to protect and defend business and commercial clients in disputes with other businesses, government entities or groups of individuals.

We represent companies across diverse industry sectors and work to advance each client's interests, understanding that a client's business plan, balance sheet and competitive profile are critical elements for successfully positioning litigation matters. We work to provide progressive solutions to help our clients solve their toughest problems and approach each new challenge as an urgent business matter to be resolved expeditiously and cost-effectively.

Our integrated team includes nationally recognized litigators who are members of the International Association of Defense Counsel, Professional Liability Defense Federation, America College of Trial Lawyers, Federation of Defense and Corporate Counsel and the American Academy of Trial Counsel. Our team has obtained highly successful results, working with national and local companies on matters in local, state and federal courts at both the trial and appellate levels.
