07/07/2021

The Faulkner County Master Gardeners are sponsoring a virtual presentation on July 20th titled:

Phytoremediation With Native Plants: How Native Plants Can Be Used to Clean Up Environmental Contaminants ("Presentation")

The *Presentation* is being undertaken by Mr. Eric Fuselier, PWS.

Mr. Fuselier is a Project Manager – Environmental with Crafton Tull in Rogers, Arkansas. His *Presentation* will discuss:

. . . how phytoremediation projects including rain gardens, bioswales, and other types of landscaping can benefit the environment beyond just providing habitat for pollinators and wildlife.

There is no cost to participate. The virtual registration link can be found here.

Contact information can be found below.
