09/09/2021

Stuart Spencer and myself will be undertaking a presentation at the Arkansas Recycling Coalition ("ARC")Annual Conference titled:

Cannabis Laws and the Future of Cannabis Management ("Presentation")

The Presentation will be undertaken on September 15th.

A number of issues will be addressed that have and will arise in regards to Arkansas medical marijuana. A key focus will be the various requirements associated with processing and growing medical marijuana. Also addressed will be a variety of issues associated with the disposal of medical waste. A reference will be made to processes associated with processing and grow facilities that can generate various hazardous waste and potentially trigger wastewater and/or or air requirements.

The Presentation will also include to some extent a discussion of labor issues that may be encountered by solid waste and recycling facilities through employee use of medical marijuana.

Other ARC topics to be addressed at the ARC convention include:

- The Evolving Mixed Recycling Industry
- Emerging Trends in Plastics
- Technologies, Innovations or Trends
- Recycling in Post-COVID Times
- C & D Recovery Programs
- Sustainability Success in Arkansas
- Corporate Sustainability: Because It Means Something
- Circular Recycling in Northwest Arkansas
