# Waste Diversion/Recycling: Lakeshore Recycling Systems Announces Acquisitions of Two Arkansas Operations

11/03/2021

Lakeshore Recycling Systems (“LRS”) announced in a November 3rd news release the acquisitions of operations whose territories include Arkansas, Kansas and Wisconsin.

LRS describes itself as the Midwest’s leading independent waste diversion, recycling and portable services provider.

The acquisitions include:

- Orion Waste Solutions (territories include Arkansas, Kansas and Wisconsin)
- Waste Recycling Solutions – RAMCO (territory includes Little Rock, Arkansas)

The acquisitions are stated to add:

- 19 municipal contracts
- 140 new employees
- 115 trucks
- One construction and debris landfill
- Nine facilities

The added Arkansas territories are stated to include:

- Central and Northwest Arkansas (Bethel Heights and Harrison, Arkansas)
- Central Arkansas which includes a construction and debris landfill in Mayflower, Arkansas

LRS states that it is North America’s fifth largest privately-held waste and recycling company. The company specializes in providing comprehensive, fully integrated waste diversion and recycling services in the following states:

- Illinois
- Wisconsin
- Iowa
- Indiana
- Michigan
- Minnesota
- Arkansas
- Kansas
