The National Center for Electronics Recycling and the Sustainability Consortium, commissioned by the Closed Loop Foundation, have announced the release of a report that addresses consumer electronics recycling.

The report is dated May, 2016 and titled *The Electronics Recycling Landscape Report* ("Report").

The 94-page *Report* addresses from a national perspective:

- The types and quantities of materials that are currently and will be moving from the consumer market into the waste stream
- Programs in place to deal with this and how effective they are
- Key drivers and innovations that will impact the effectiveness of electronics recycling moving forward

A link to the *Report* can be found here https://www.sustainabilityconsortium.org/wp-content/themes/sustainability/assets/pdf/TSC_Electronics_Recycling_Landscape_Report.pdf
