The Beaver Watershed Alliance (“BWA”) announced that Dr. Bob Morgan has been recognized as a Beaver Lake Watershed Guardian.

Dr. Morgan is with the United States Endowment for Forestry and Communities (“Endowment”).

BWA states that Dr. Morgan is being recognized for his “long-term involvement, support, and technical assistance in the voluntary protection of Beaver Lake, Northwest Arkansas’ source of drinking water.” His work is stated to include the establishment of the Source Water Protection program at Beaver Water District. Further, BWA notes Dr. Morgan’s “voluntary participation in countless watershed stewardship programs, his service as a founding member of the Beaver Watershed Alliance Board of Directors, and its efforts in the development of the voluntary Beaver Lake Watershed Protection Strategy. . .”.

The Watershed Guardian Award program is a stewardship recognition effort carried out by BWA to “recognize individuals, businesses, organizations and agencies in the Beaver Lake Watershed community who have demonstrated, supported, or achieved water quality protection efforts within the watershed.

BWA describes itself as a non-profit organization focused on maintaining high quality drinking water in Beaver Lake and improving water quality within the Beaver Lake watershed.
