ADMINISTRATIVE ORDER ON CONSENT

NOTICE TO THE RESPONDENT

The issuance of this Administrative Order on Consent No. APCP-2023-026 (Order) by the Missouri Department of Natural Resources (the Department) is a formal administrative action by the State of Missouri and is being issued because PRAIRIE VALLEY DISPOSAL, INC. d/b/a/ Prairie Valley Landfill (the Respondent) is in violation of Missouri Air Conservation Law, Chapter 643, of the Revised Statutes of Missouri (RSMo), and its implementing regulations. This Order is issued under Sections 643.060(4), 643.080, and 643.085, RSMo. Failure to comply with this Order is, by itself, a violation of the Missouri Air Conservation Law under Section 643.151.3, RSMo.

FINDINGS OF FACT

1. PRAIRIE VALLEY DISPOSAL, INC. is a for-profit corporation registered and in good standing with the Missouri Secretary of State.
2. The Respondent is a privately owned municipal solid waste landfill, located at 3975 Hwy 19 North, Cuba, Crawford County, Missouri.

3. The Respondent began accepting waste in August 2000, and currently operates under Part 70 Permit to Operate No. OP2018-020 (Permit) with a permitted waste capacity of 3.14 million cubic meters.

4. The Permit and Missouri Air Conservation Regulation 10 CSR 10-6.065, "Operating Permits," require the Respondent to file a completed application for renewal of the operating permit at least six months before the date of permit expiration. In no event shall this time be greater than 18 months. Because the Permit expired on February 2, 2023, the renewal application was due by August 2, 2022. Failure to submit the application on time results in expiration of the permit without the "application shield." The Department did not receive a complete application to renew the Permit until November 14, 2022. The Respondent is now operating with an expired permit.

5. On September 22, 2022, the Department issued a Letter of Warning to the Respondent to submit a permit renewal for the Permit.

6. On April 21, 2023, the Department issued a Referral Notice of Violation (RNOV) No. AP23007 to the Respondent to document the violation identified in Paragraph 4.

7. The Air Pollution Control Program's Permitting Section is currently evaluating the Respondent's permit renewal application for the Permit, received on November 14, 2022.

8. The amount of the administrative penalty is assessed according to the criteria of 10 CSR 10-6.230, "Administrative Penalties." From a gravity-based analysis, it has been determined the violation of 10 CSR 10-6.065 is a moderate potential for harm and a moderate extent of deviation from the requirement. The violation of 10 CSR 10-

6.065 that occurred at PRAIRIE VALLEY DISPOSAL, INC. on August 2, 2022, was a moderate potential for harm. Failing to submit the operating permit renewal application at least six months prior to the permit expiration does not ensure enough time for the Department to adequately evaluate the application. The violation was a moderate extent of deviation because the Respondent's permit expired on February 2, 2023, and the Respondent is currently operating without a valid permit. Using the gravity-based matrix and finding the extent of deviation as moderate and the potential for harm as moderate, and considering adjustment factors including fairness and equity, the assessed penalty is \$3,750.

STATEMENT OF VIOLATIONS

The Department finds that the following violations of the Missouri Air Conservation Law, Chapter 643, RSMo, and its implementing regulations have occurred, thereby subjecting the Respondent to penalties as described in Sections 643.151 and 643.085, RSMo:

9. On August 2, 2022, as identified in Paragraph 4 above, the Respondent failed to submit a complete renewal application at least six months prior to the expiration of the Permit on February 2, 2023, in violation of the Permit and 10 CSR 10-6.065.

In such event, the Respondent shall provide 30 days prior written notice of such assumption to the Department.
