beaverwatershedalliance.org/events/

What We'll Cover:

- **Karst is All Around Us:** Understanding Ozark springs, sinkholes, and underground water flow.
- **Why Karst Needs Protection:** How surface activities affect underground aquifers and drinking water.
- **Habitat Above & Below:** Supporting specialized karst and cave wildlife with native vegetation.
- **Hands-On Demonstration:** Interactive native tree planting for on-site riparian buffer.

With Special Guest Speaker:

Mike Slay | The Nature Conservancy

Event is free, but RSVP required
