Abstract: This ICR covers the paperwork burden under the PRA that is associated with two types of pesticide registration requests made by States, U.S. Territories, or Federal agencies. Specifically, this ICR covers emergency exemption requests, which allow for an unregistered use of a pesticide, and State registrations of a pesticide use to meet a special local need (SLN). FIFRA section 18 authorizes EPA to grant emergency exemptions to States, U.S. Territories, and Federal agencies to allow an unregistered use of a pesticide for a limited time if EPA determines that emergency conditions exist. FIFRA Section 18 requests include unregistered pesticide use exemptions for specific agricultural, public health, quarantine and crisis purposes. FIFRA Section 24(c) authorizes any particular State to register additional uses of a federally registered pesticide for distribution and use within that state to meet a SLN.

Form Numbers: 8570-25 & 8570-4.

Respondents/Affected Entities: States and Federal government agencies and pesticide, fertilizer, and other agricultural chemical manufacturing.

Respondent's obligation to respond: Mandatory under FIFRA Sections 3 and 11.

Frequency of response: On Occasion.

Estimated total number of potential respondents: 283.

Estimated total burden: 25,753 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Estimated total costs: \$ 1,829,103 (per year), includes no annualized capital investment or maintenance and operational costs.

Changes in the estimates: There is no change in the number of hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB.

Dated: December 11, 2020.
