

Streambank Restoration Field Tour Thursday, Nov. 14th

Streambank Restoration Field Tour

Date: Thursday, November 14th

Time: 9:00am - 4pm, registration at 8:45am

Location: Illinois River Watershed Partnership, 221 S. Main St., Cave Springs

RSVP required: <http://irwp.org/events/streambank-restoration-field-day/>

Come out and join us to learn all about major streambank restorations. This free event will focus on the intensive restorations needed for banks that are cut, and are in need of more repair than a simple tree planting. This event will begin with two presentations by experts; the first on how to permanently protect the investment of a major restoration through land conservation, and the second on what's needed to restore a severely cut bank. Presentations will be followed by lunch, included.

After lunch, we will tour three different streambank restoration sites. One showing a site in final planning phase, pre-construction, and two completed restoration projects.

This course has been submitted for 4.5 LACES credits, and IRWP certificates of completion for other licenses will be available on request.

For questions, contact Stephanie at stephanie@irwp.org or call 479-215-6623.

Streambank Restoration Field Tour
